

**Spotlight on: Ann Pegrum**, Chairman of the Letchworth Festival

From the outset, without ever promising to do so, Ann has been a core member of the 3D\_Igc Project Team. She has applied her experience especially to the publicity required to scale this up from a limited event to an initiative in its own right. That has involved advising and doing; contacts, funding and a knowledge of what will attract the various sections of the public. **Many thanks Ann, you're brilliant! - please keep up the good work!**
